

FULL-WRAP ENERGY EPC

SOLAR | BATTERY STORAGE | POWER INFRASTRUCTURE

TERRA PRIME POWER
Clarion, PA
PA | OH | MD | VA | WV | NY | DE | NC | NJ

LOWER COST TO BUILD. HIGHER VALUE TO OWN. FULL VISIBILITY THE WHOLE WAY.

Terra Prime Power (TPP) is a contractor-led EPC backed by sister companies Terra Works, Inc. (heavy civil since 2002) and American Precast Industries — one accountable team from early-stage optimization through energization.

WHY OWNERS CHOOSE TPP

01 NPV-optimized engineering

We engineer for the highest project NPV — energy, CapEx and schedule together — not just the cheapest bill of materials.

02 Free advanced owner analytics

Pile-by-pile install and QA/QC status, live. The visibility others charge for, included.

03 Industry-leading cost

Self-perform crews, an owned fleet, in-house precast and material. Fewer layers of markup.

04 Built where others won't

Slopes over 25%, reclaimed mine land, capped landfills and frozen ground.

05 Highly automated

GPS grading, drone surveys, digital QA/QC and automated daily reporting.

06 A true partner

Engineers in your corner, open line-item pricing and one accountable team.

SEE IT LIVE *real-time pile, racking, module and QA/QC status — free to every TPP owner*

Construction View. Every pile, row and module on drone imagery, live — owners log in free.

>1 GW SOLAR EXPERIENCE

ACTIVE PROJECTS

- **~48 MWdc** Blair Co., PA
- **28.3 MWdc** Clearfield Co., PA
- **28.2 MWdc** Clearfield Co., PA
- **~26 MWdc** Washington Co., PA · reclaimed mine land
- **4.2 MWdc** Jefferson Co., PA
- **DG portfolio, 18 MWac** six 3 MWac sites · central PA

WHAT WE DELIVER

Full-wrap EPC optimize, engineer, procure, build, commission

Solar + storage utility & DG solar, BESS, piles, racking, MV

Power infrastructure substations, gen-tie, SCADA, data-center power

Traditional energy natural gas and other conventional energy projects

READY TO BUILD?

Bring us in early — we take the most cost and risk out before IFC.
